

## **Albany EAC 10/3/2022**

**In attendance:** Tom Kerr, Anita Zawada, Randy Hensinger, Bracken Brown

**Meeting Initiated:** 7:35

Minutes passed motioned by Randy, seconded by Tom:

The forest talk was less attended than group expected. Could a targeted mailing be sent out to qualified land owners. Potential to get mailing addresses via the tax records. Tom Kerr would be willing to get names and addresses, if TNC is willing to fund a mailing. Tom will touch base with presenter. Can potentially give take aways at the Hawk Mountain event.

**Upcoming program Nov 15:** For Hawk Mountain evening Nov 15<sup>th</sup> poster almost ready will be sent around for final reviews.

**Social Media:** Thirty new page followers in the last month, Bracken is not sure whether it was from the last talk, or people stumbling onto the page.

**Insurance for volunteer events:** Township supervisors believe volunteers are covered for events, would be good if the supervisors were made aware of any upcoming events planned. Check and make sure that the insurance agent signed off on this being the case.

### **Additional Updates:**

Burn within the township was presented to the township supervisors, they were going to look into potential.

Todd Bauman the Albany Park had an initial thistle spray event.

Having no other agenda items driven by those who were present meeting adjourned. 7:52.
